Print & Cut Circle Labels

- **Print -** Print this page at actual size or 100% scale-no shrinking, stretching, or squeezing.
- **Cut -** Grab some scissors and carefully snip out the label shapes along the dotted lines. No need to get fancy-just follow the lines.
- **Apply -** Tape the cut-out labels onto your product, one at a time, to see what fits best. Check it out from all angles-front, back, and side-to make sure the size and shape work for your product.
- **Order -** Once you've found the perfect fit, head over to ***WizardLabels.com*** to order custom labels in the exact size you need.

If you're unsure about your measurements, our team is happy to help! Simply fill out our ***contact form***, start a chat during normal business hours, or email us at ***webcontact@wizardlabels.com***.
